Subject: PRESS RELEASE 7/2/15 - Traffic Signal Upgrade at Robinson St and Brookhaven Blvd

PRESS RELEASE

City of Norman
201 West Gray
Norman, Oklahoma 73069

For Immediate Release: July 2, 2015

Contact: David Riesland, City Traffic Engineer, 329-0528, David.Riesland@NormanOK.gov

Traffic signal upgrade at Robinson Street and Brookhaven Boulevard

Weather permitting, on Tuesday, July 7, 2015 the City Traffic Control Division will be upgrading the traffic signal located at the intersection of Robinson Street and Brookhaven Boulevard. After 9 a.m. on July 7, the intersection will be temporarily controlled by an all-way STOP sign. Signal operation will be restored at the intersection before noon on the same day.

Currently, both the northbound and southbound approaches receive green indications simultaneously. This can make it difficult, especially during periods of higher traffic volumes, for the left-turns onto either direction of Robinson Street to be made. Crews will be modifying the phasing of the intersection so that northbound and southbound approaches come on separate from one another allowing the left-turns to be made much more easily and without conflict from oncoming traffic.

Any questions about the project can be directed to Mr. David Riesland, City Traffic Engineer, at 329-0528 or David.Riesland@NormanOK.gov.
